

XC/MG XactMan® Manufacturing

Quantum Software's XC/MG continues to be one of the most innovative tools available today. XC/MG offers businesses an alternative to expensive conversions to other ERP systems. The current release of XC/MG includes the most commonly used List, Maintenance, Transaction, and Utility commands, as well as an MRP report and complete Purchase Order processing. New features include the ability to export data to other Windows based products such Microsoft Excel and Word. XC/MG also has an innovative feature that allows users to customize the screens to their liking. The XC/MG workspace contains the MyXactMan® desktop, which allows users to create shortcuts to frequently used commands.

XC/MG includes full purchase order functionality - Real time access is provided in the creation of PO's to the purchasing, vendor, and manufacturing databases via the intuitive GUI interface. Drop-down lists are provided for easy and accurate data entry. XC/MG client/server technology allows the user to run multiple commands within a single session allowing non-interrupted workflow.

The screenshot displays the 'List an Indented Bill of Material [200987-11]' window. The main window title is '01 - XactMan Manufacturing'. The menu bar includes File, Purchase Orders, List, Maintenance, Report, Search, Connection, Window, and Help. The toolbar contains icons for Print, Save, and other functions.
